

Drumbook
PRACTICE JOURNAL FOR DRUMS

They practise at home. You just don't know what.

The most honest answer to "So, did you practise?" is a shrug, because after a week nobody remembers.

- A PDF with date, length and tempo reached.
- Your instructions come first in their practice list.
- No iPhone or account needed, and no student data on your side.

Take a look before you pass it on

Everything about Drumbook, including the student flyer to print.

drumbook.de/en

Drumbook is not a teaching platform. It turns a student into one who knows what they practised.

Built by Silvio Lange, who is learning the drums too. Still in testing.
