Open questions

? How long should I stay at 72 before going faster?

Independence, left foot

? Should I practise the fills with a double pedal as well?

Linear fills over two bars

Lessons

DATE	CONTENT	ASSESSMENT
23 Sep 2026	Paradiddle variations and linear fills.	Right hand is steady, the left lags behind on tempo. Practise slowly, not at the limit. ★★★★★
16 Sep 2026	Hi-hat on the upbeat, first go at independence.	Better than last time. Do it away from the kit too; the foot needs the pattern in its head. ★★★★★
